FEW WORDS ABOUT ME

I am a graphic and web designer with over 6 years of experience in the field. I have a wide range of design-related skills, such as branding/packaging, logo, mobile UI, web design.

I am proficient in Adobe Illustrator and Photoshop. I have designed dozens of logos, UI for several mobile applications and websites.

I can design mockups for big projects and cooperate with web developers, or if it's a small webpage (i.e. a landing page) I can design the whole page myself. I am very good at working with other people (both designers and developers). In addition, my knowledge of HTML, CSS (and Bootstrap, WordPress etc) and their potential limitations, allows for a smooth collaboration with the developers of the team.

I am creative, passionate, I adapt to client feedback, and even though I pay attention to detail, I'm fast and efficient.

EDUCATION

2006 **Art School**

2012 Of Gerakas, Greece

2012 **Vellios School of Art** **Graphic Design**

2015 Athens, Greece
